

THE IMPORTANCE OF GAMECHANGING TRUTHS FOR FIRESIDE CHATS

God has been building a new breed of leader in Aglow through the intentional messages we have been hearing. We are becoming leaders who visually demonstrate life in the Kingdom throughout the nations of the world.

When building a house, a strong foundation is imperative. Knowing how we are known in Heaven and who God will be for us in every situation is foundational. Those truths enable us to carry out each mandate the Lord has given us.

It is no longer family business as usual. We are also the Army of God. Jesus wanted His disciples to know who He was so they could learn to walk with Him in that context. Knowing who the attendees in your group are from Heaven's view point will cause you to walk together with a renewed sense of purpose and confidence.

These short GameChanging Truths based on real life experiences with practical applications are designed to engage attendees in conversations that will reveal individual identities as they reinforce the teachings of *Game* and *LifeChangers*. As you partner with corporate prophetic words, as well as, local prophetic words, assignments will become clear. This is going to be a great journey!

HOW TO USE THE FIRESIDE CHATS

During this year of transition, consider using the Fireside Chats in place of a speaker allowing attendees to process GameChanging truths together. Each piece reinforces the foundational truths that are essential for all that has been built into Aglow.

Have a facilitator read or paraphrase the real life story. Hand out a copy of the Chat for each attendee. Break into small groups where each group can process through the practical applications. Make it a safe place where everyone is encouraged to talk about similar experiences and areas of struggles and victory. Let the Holy Spirit do His work.

Knowing each other through struggle and victory builds strong relationships. In times of weakness, He will bring strength. And exploring real life situations promotes honesty.

For Aglow to become a Kingdom community within a local community, strong relationships are crucial for carrying out your Kingdom assignments.

You can find the *GameChanging Truths for Fireside Chats* at aglow.org in the Resources section.
