70 Keys for Radical Renewal

Graham Cooke

2025 Aglow International Virtual Conference – Saturday AM

1. When God calls us to a new level of anointing, there is a new process that He commits us to that is designed to enable us to develop the mindset required by upgrading the persona that will take us forward.
2. Inward development is much more vital than external circumstances.
3. If all you want is your external circumstances to change, that means you are not going to change, because you will never develop the internal life that Jesus died to give you.
4. Aglow is a worldwide Kingdom community which requires an apostolic anointing to create growth in the Spirit that will facilitate the development of regions to operate in greater fullness.
5. It is important that we learn to pay greater attention to what God is revealing to us as He upgrades our anointing in the realm of the Spirit.
6. A process is a series of steps that arise out of the desire of God to invest in His people with a more powerful Kingdom presence.
7. Business as usual cannot produce real change in the world.
8. What must we stop doing so that fresh anointing can re-envision a different generational power to emerge?
9. In a new move of God, the first requirements is to take a critical look at the overall function of the movement, to take stock of the growth capacity at the top level, to upgrade the renewal capability of the next level below so the warriors and key voices in the movement are refreshed, and to empower young people to emerge.
10. A crafted prayer is specifically crafted to provoke a faith that will not let go.
11. A crafted prayer is a call to stand, to endure with praise, and to accomplish with power from on High.
12. A crafted prayer puts us in alignment with God's plan, with God's will, with God's power, with God's Love and Kindness toward us as a people.
13. A crafted prayer means we cannot lose heart in the process because the prayer aligns us with the purpose of God.
14. Crafted prayers must change something in our fellowship with the Creator.
15. A new abundant new life can be established regardless of the circumstances because God is with us.

29. If we are to know who we are in the present and who we can become going forward into the future, we have to develop the heart and the mindset that goes with that.
30. The difference between the present and the future that is the evidence of our transformation.
31. It is really important that we talk about the transformation that you have undergone because you have to give evidence of your transformation so that we know that you can be trusted for the next thing that God is doing.
32. Transformation occurs when we perceive truth and learn to think as God does about our life going forward.
